Objectives ▸ Students ▼	MA.B.2.2.1	MA.B.2.2.2	MA.B.4.2.1	MA.B.1.2.1	MA.B.1.2.2	MA.B.4.2.2	Score
Sweeny, Teresa (teresas)	✓	✓	✓	✓	✓	✓	92
Elias, Jesse (jessee1)	✓	✓	✓	✓	✓	✗	83
Vargas, Jason (jasonv)	✓	✓	✗	✗	✓	✓	79
Briggs, Briana (brianab)	✓	✓	✓	✓	✗	✗	75
Jones, Latisha (latisha)	✗	✗	✓	✗	✗	✗	50
Nunez, Rey (reyn)	✓	✓	✗	✗	✗	✗	42
Percent Mastered	83	83	67	50	50	33	

MA.B.2.2.1: Use direct/indirect measures
 uses direct (measured) and indirect (not measured) measures to calculate and compare measurable characteristics.

MA.B.2.2.2: Measure with standard/nonstandard units
 selects and uses appropriate standard and nonstandard units of measurement, according to type and size.

MA.B.4.2.1: Determine unit to use to solve problems
 determines which units of measurement, such as seconds, square inches, and dollars per tankful, to use with answers to real-world problems

MA.B.1.2.1: Measure to solve problems
 uses concrete and graphic models to develop procedures for solving problems related to measurement including length, weight, time, temperature, perimeter, area, volume, and angle

MA.B.1.2.2: Solve measurement problems
 solves real-world problems involving length, weight, perimeter, area, capacity, volume, time, temperature, and angles.

MA.B.4.2.2: Measure using instruments
 selects and uses appropriate instruments and technology, including scales, rulers, thermometers, measuring cups, protractors, and gauges, to measure in real-world situations

Test Summary by Objective Report

- ☐ Select **Reports** → **Assessment Reports** → **Test Summary by Objective**
- ☐ Create a new report ... Click **Next**
- ☐ Select Report Options: Select Subject Area and Grade Level
- ☐ Select Test: Select the **Test Title** of interest
- ☐ Click **Next**
- ☐ Select the student(s) or class(es) of interest
- ☐ Click **Next**
- ☐ Confirm Selections
- ☐ Click **Generate Report**

Note: Choose to view as PDF or Export as CSV. You can "show with scores" by selecting that option at the top right.
